

# JIMI RAINE

## IS READY TO UNLEASH BRITISH ROCK N ROLL IN ITS PUREST FORM

Take You Away is the debut EP from a London singer songwriter aiming to write a fresh chapter in a forgotten genre relegated to sad tales of former glories.

Mixed by Jim Lowe (Foo Fighters, Stereophonics, The Charlatans), the four-track release of riffs, blues, ballads and ballsy lyricism.

Take You Away, Make It On My Own, Sold My Soul and Up To The Sun evoke shades of The Clash, The Cult and Stereophonics, and have already caught the attention of XFM/Amazing Radio DJ Jim Gelatly who has started spinning Jimi's tunes.

Rock with cutting realism powered by one of the most genuine sounding backing bands you're ever likely to hear make Jimi Raine a name to remember and a force to be reckoned with.

*"Charismatic London boy Jimi Raine deals in superior British rock n roll that somehow encompasses The Clash and The Stereophonics in its timeless leather jacket against the world appeal."*

*"Jimi Raine is the shot in the arm rock n roll has been waiting for. An adrenaline injection of grit, passion, soul and old school honesty hidden behind a pouting, popped collar, wayfarer-wearing Londoner."*
